7 Strategic Recommendations / Strategische Empfehlungen / Стратегические рекомендации /

English

1. Market Entry Strategy

- **Phase 1:** Start with South Africa and Nigeria (largest markets, established logistics)
- **Phase 2:** Expand to Kenya and Ghana (high growth rates)
- **Phase 3:** Enter Ethiopia and Tanzania (emerging markets, lower competition)

2. Product Mix Optimization

- Focus 60% on Footwear & Bag Leather (high demand, good margins)
- Allocate 30% to Upholstery Leather (stable demand)
- Reserve 10% for Synthetic Leather (volume play)

3. Risk Management

- Establish LC (Letter of Credit) payment terms for first 3-6 months
- Partner with local distributors who have existing networks
- Maintain 2-3 week inventory buffer at destination
- Hedge 70-80% of FX exposure on shipments > $50,000

4. Logistics Optimization

- Consolidate shipments to achieve 95%+ container utilization
- Negotiate volume discounts with shipping lines (target: 15-20% reduction after 10 containers)
- Utilize bonded warehouses at destination ports to defer customs duties
- Implement GPS tracking and marine insurance for all shipments

5. Competitive Positioning

- Price 10-15% below Turkish leather imports
- Emphasize consistent quality and supply reliability
- Offer flexible payment terms after relationship establishment
- Provide technical support and after-sales service

Deutsch - Wichtigste Empfehlungen

1. Einstieg über Südafrika und Nigeria
